ACTION COALITION ON TECHNOLOGY AND INNOVATION FOR GENDER EQUALITY

VISION

By 2026, women and girls in all their diversity have equal opportunities to safely and meaningfully access, use, lead, and design technology and innovation with freedom of expression, joy, and boundless potential.

We call for collective responsibility,
especially from governments and
corporations, to develop bold gendertransformative actions to widen
innovation ecosystems, embed
transparency and accountability in
digital technology, and expand inclusive
digital economies.

WHAT NEEDS TO CHANGE?

At 15 years of age, on average across OECD countries, only 0.5% of girls wish to become ICT professionals, compared to 5% of boys. Twice as many boys as girls expect to become engineers, scientists or architects.
